AI SUMMER BOOTCAMP-2026

Students Learning AI will Lead Tomorrow

● **LIVE** Online

www.techtycoon.in

Program Overview

The future belongs to students who understand Artificial Intelligence early.

The AI Summer Bootcamp is a powerful 30-Day Certified Training Program designed **for school students (7th 8th 9th 10th & 11th)** who want to use AI smartly for studies, career growth, and set up a strong foundation to encounter the future.

This bootcamp focuses on practical implementation, not just theory. Students will work on real exercises, real assignments, and real-world AI use cases.

This program is designed to help students:

- Use AI effectively in academics
- Improve productivity and learning speed
- Build future-ready career skills
- Setting a strong foundation for their future.
- Implementing a Responsible & Ethical use of AI

This program explores how artificial intelligence is influencing school children today, examining both its benefits and challenges. It begins by introducing the rapid growth of AI tools in education and how students are using them for homework, research, exam preparation, and creative projects. The discussion then highlights the positive impacts, such as personalized learning, instant doubt clarification, improved productivity, and better understanding of complex subjects. At the same time, it addresses concerns including over-dependence, reduced critical thinking, cheating risks, and data privacy issues. The program concludes by analyzing the future of AI in schools and emphasizes the importance of responsible and balanced AI usage.

PROGRAM DURATION & STRUCTURE

1

Total Duration: 30 Days

2

Schedule: Monday to Saturday

3

Daily Duration: 3 Hours per Day (If needed may increase the time)

4

Training Mode: Live + Practical + Hands-on

5

Certification: Yes – Career-Focused AI Certification

Who Can Join

- ✓ School Students (7th 8th 9th 10th & 11th)
- ✓ Students Who Want to Start Early in AI
- ✓ Students who are passionate about their career
- ✓ Students who want to be successful

Program Highlights

- ✓ Practical AI Learning
- ✓ Daily Exercises & Assignments
- ✓ Real AI Tool Implementation
- ✓ Real time Examples of AI in today's Industry
- ✓ Guest Sessions from Industry Experts
- ✓ Career-Focused Certification
- ✓ Future Skills Development

Core Modules Covered

GENERATIVE AI

1. Introduction to Modern AI Tools
2. AI for Writing, Design, Coding & Productivity
3. Smart and Responsible Use of AI

PROMPT ENGINEERING

1. How to Communicate with AI Effectively
2. Prompt Frameworks for Better Results
3. Prompts for Studies, Research, and Business

AGENTIC AI

1. Introduction to Agentic AI Concepts
2. AI Automation Basics
3. AI Workflow Thinking
4. Future of AI Agents

ETHICAL AI & RESPONSIBLE USE

1. AI Bias: What it is and why it matters.
2. Deepfake and Misinformation deduction
3. Copyright and Plagiarism in the age of AI

AI FOR CAREER DEVELOPMENT

1. Make Your Own Profile Using AI
2. Use AI to Speak Better and Feel Confident
3. Learn Faster and Smarter with AI

Additional Future-Ready Learning

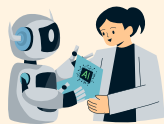

AI PRODUCTIVITY FOR STUDENTS

1. Smart Study Methods Using AI
2. Research and Note-Making Using AI
3. Time Management with AI Tools

AI + DIGITAL SKILLS INTEGRATION

1. AI + Content Writing
2. AI + Digital Space
3. AI + Presentation Skills

AI FOR EXAM PREPARATION

1. Using AI to create Study Plans
2. Having Mock Test with AI
3. Explaining Simple Concepts with Simple Language with AI
4. Analyzing Weak areas and Improving

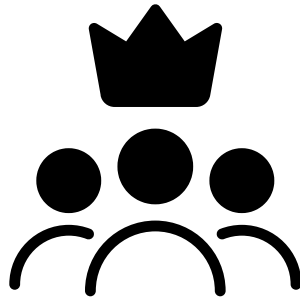

AI TOOLS HANDS-ON PRACTICE

1. Writing AI Tools
2. Research AI Tools
3. Presentation AI Tools
4. Basic Coding AI Exposure

REAL LIFE MINI AI PROJECTS

1. Project Planning and Ideation with AI
2. Combining Multiple AI Agents for Mini Projects
3. Presentation and Storytelling with AI

Special Feature: Guest Expert Sessions

SPECIAL GUESTS

DURING THE BOOTCAMP, INDUSTRY EXPERTS, ENTREPRENEURS, AND AI PROFESSIONALS WILL INTERACT WITH STUDENTS AND SHARE:

Real Industry Experience, Career Guidance, Business Opportunities Using AI, Future Technology Trends

STUDENT OUTCOMES

AFTER COMPLETING THE BOOTCAMP, STUDENTS WILL BE ABLE TO:

- ✓ Use AI for academics and projects
- ✓ Build AI-based productivity systems
- ✓ Understand AI career opportunities
- ✓ Develop entrepreneurial thinking
- ✓ No More Fear of AI (No FMO)
- ✓ Build confidence in using future technologies

WHY THIS BOOTCAMP MATTERS

1. Students who learn AI today will lead tomorrow's world.
2. This bootcamp is not just a course.
3. **It is a career foundation program for the AI era.**

Meet Your Trainer

From Curiosity to Creating Futures

There was a time when technology felt distant, something to watch, not something to build a career around. But curiosity changed everything. What began as an interest in digital tools grew into a journey through digital marketing, content creation, and finally into the powerful world of Artificial Intelligence.

Along the way came real experiences. Training students. Guiding professionals. Working with entrepreneurs. Helping people understand that technology is not something to fear, but something to use wisely.

Today, **Antony Praveen is an International Certified Trainer, AI Educator, and Founder of Tech Tycoon Digital Solutions.** His mission is to help students learn AI early and use it to grow in studies, careers, and business.

Through this AI Summer Bootcamp, his goal is simple: help students move from knowing about AI to using AI confidently, so they can become creators, innovators, and future-ready leaders in an AI-driven world.
